**Board and Train Contract:**

Total Cost

4 Week Program \$1950

3 Week Puppy Program \$1500

The process will ensure both the dog & the owners will be well trained.

Week 1:

Steve will contact you and send you a private video link. In this video you will begin feeding your dog a certain way. It is very important to watch this video and begin the process one week out from drop off. After watching the video you can contact Steve and ask any questions that may be hanging around.

Week 2-5

Drop off & (4 Week Board and Train / Immersion Program). This is where the dog begins intensive training. During this time you will receive daily updates, pictures and videos of the progression of your pup!

Graduation Day/ Workshop: ON this day you will come and learn what your dog now knows! We will walk you through the entire process. This workshop will begin the training process for the human side of the team. The workshop will equip you to keep your pup going in the right direction. Teach you how to hold the dog accountable and how to correct any mistakes the dog may make in the future.

**Optional Follow-Up** You will have the opportunity to work 1 on 1 with Steve via 3 private lessons and 1 group lesson. This is a critical part of the overall program. This is something Steve designed to help the owner and dog become a cohesive team. In the past, the follow-up lessons were not a part of the Immersion Program, the graduation workshop was the final step in training. We have now come to realize, even though the dog is trained, we have to train the people to drive the car that has been built. In these 4 lessons, you will do two sessions at your home or place of your choosing. One session will be in a public location (dog dependent) and one will be in a group setting where you will be working in high level distractions. After these 4 sessions you will be equipped to manage your trained dog for a lifetime. Discounts apply. These sessions are discounted to \$100 per session.

Pet Owner understands that participation in training sessions alone does not guarantee success in obedience training and that **K9 NATION LA'S** goal is to provide Pet owner with the foundations for

obedience training. Pet Owner understands that when the pet goes back to their environment that the Pet Owner has to do a reasonable amount of

training [2-3 session daily] for at least a month to transfer respect, leadership and to maintain and reinforce behaviors learned while in Board and Train for the pet to retain their success. Some breeds and temperaments will need longer to transfer leadership. Pet owners also understand that obedience training has to be generalized to all environments. Pet owner also understands that they have to keep up the structure that was maintained in Board and Train for their dog to be successful once they return to the pet's environment. **K9 NATION LA** will explain how to fade out the treats and also how to maintain the success of the obedience and house breaking once the dog returns to the home environment. Some behaviors are caused by their environment and if the environment does not change the behaviors will return. A consistent schedule for exercises is required as well for the dog to maintain behaviors learned or modified in our training course. **Initials** \_\_\_\_\_

Dogs with prior evaluations and that have been accepted for house breaking training will be crate trained. **K9 NATION LA** will teach a basic foundation and re-imprint the dog on a textured surface. Pet Owner will have to maintain the same schedule

and house breaking training methods learned with **K9 NATION LA** once the dog is back in their environment. It is common for a dog to mark [your house] to reestablish their territory once the dog comes home.
